**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Election/Restrictions***

1. This application contains claims directed to the following patentably distinct species of the claimed invention: I) the embodiment of Figure 1, and II) the embodiment of Figure 2. Applicant's response (Remarks pages 7 and 8) filed 31 May 2005 indicates that the newly filed claims correspond with these groupings.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, no claim is generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the

Art Unit: 3736

case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

2. During a telephone conversation with Jila Bakker and John Rariden on 15 August 2005 a provisional election was made without traverse to prosecute the invention of Group II, claims 18 - 26 and 37 - 43. Affirmation of this election must be made by applicant in replying to this Office action. Claims 27 - 36 are withdrawn from further consideration by the examiner, 37 CFR 1.142(b), as being drawn to a non-elected invention.

3. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

***Claim Rejections - 35 USC § 102***

4. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

5. Claims 18 - 20, 22 - 26, 37 - 40, 42, and 43 are rejected under 35 U.S.C. 102(b) as being anticipated by Rafert et al. Figures 1 - 4 (and the description thereof) disclose a conformal pulse oximetry sensor. The adhesive of Rafert et al. is considered to be adapted to attach the sensor to a subject's forehead or any of the claimed headcoverings. Without claiming further structural details, the cable of Rafert et al. is

Art Unit: 3736

considered to be "adapted to extend... though a portion of" any of the claimed headcoverings.

6. Claims 18 - 26, 37 - 40, 42, and 43 are rejected under 35 U.S.C. 102(b) as being anticipated by DeLonzor. Applicant's attention is drawn to Figures 6 and 7 and the description thereof. The adhesive of DeLonzor is considered to be adapted to attach the sensor to a subject's forehead or any of the claimed headcoverings. Without claiming further structural details, the cable of DeLonzor is considered to be "adapted to extend... though a portion of" any of the claimed headcoverings.

7. Claims 18 - 20, 22 - 25, 37, 38, 41, and 42 are rejected under 35 U.S.C. 102(b) as being anticipated by Toomim et al. (previously cited). Applicant's attention is drawn to Figures 1 - 3 and the description thereof.

### ***Conclusion***

8. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

Art Unit: 3736

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
